It cause be that Joseph was a brother to my grate-grandfather (Andrew) and Mary Ann was a cousin to grandfather. Both born oversea know one here in US that can tell me how is how. For that part no oversea can also.

There evidence that there was more then one Scehovic in Pennsylvania. My grandfather (John) his brother Valentin, Joseph which may be uncle to them and Mary Ann. What happen to Joseph and his family? Mary Ann had to come from some other Scehovic right.

With a name like Scehovic, no one knows how to pronounce or spell, you're related. It's not like a Miller, a Jones or a Grant.
