ISAAC

Integral Synaptic Anti-Anionic Computer

Calling: Investigator

Hindrances: Triggered Powerless when disconnected from thermal energy source found at Titan's core. It is logical to assume that ISAAC could operate for a significant amount of time due to back-up power generators installed by the Eternal scientists of Titan.

Personality: Subject to his programming, ISAAC is a respectful servant of the Eternal race of Titan. He is loyal and devoted to his creators. He respects earth's heroes and is an informative ally.

SKILLS

ISAAC has a vast range of computational functions and can be considered as having ALL science skills.

POWERS

Computer Link 20

ISAAC is a vast computer system which honeycombs the moon of Titan. **Stunt: Mechanical Link.** (Android body)

EQUIPMENT

ISAAC often animates a 7' android body to facilitate more direct, humanoid confrontations. The stats of the android body are as follows: **Strength** 14, **Agility** 10.

Body Armor +2. **Invulnerable** to Disease, Gases, Mental Attacks or Poison. **Resistance** to energy attacks +7.

History

Among the greatest achievements of the Titanians is undoubtedly the building of ISAAC. ISAAC's main duty has been of regulating the artificial biosphere with Saturn's Moon, Titan.

For a brief period of time, ISAAC's program was altered by the death-worshipping mad Titan Thanos. Since then, ISAAC's original programming has been restored and he serves Titan's Eternals loyally.
