# AMWNG

**Edition May 2004**

## **Introduction**

Well here is the next edition of the African Mediumwave Guide. The AMWG lists all known African medium wave broadcast stations in the African Continent. It lists some 400 stations in 43 Countries with necessary information like Frequencies, Country, Callsign, Slogan, Locations, Power, Formats, Schedules, Network and other information.

I want the AMWG to follow in the footsteps of two other fine publications, namely the "Pacific-Asian Log" and "The European Mediumwave Guide". Both are excellent publications and lots of time and effort has been put into their creation. There is no secret that this guide was modeled on the two above guides. The main information was compiled using Microsoft Access and exported to Microsoft Word. Robo PDF was used also.

Please if you find this guide useful, please do take the time to keep this very much up to date as possible with you sending in your comments, corrections and updates and of course the users valuable input of suggestions on how to improve this resource. Please email or use the postal address list below.

## **Reference Sources**

DX Publications, DX Clubs, e-mail reflectors and many web sites are my primary source of information. They are Australian Radio DX Club (ARDXC), Hard Core DX Club (HDXC), International Radio Club of America (IRCA), New Zealand DX League (NZDXL), MWDX e-mail Reflector, MWOZ e-mail reflector, NRC e-mail reflector. Also thanks to those who have provide details via email and personal web sites, John Plimmer (South Africa), Rocco Cotroneo (Brazil), Tony Mann (Australia), Joe Talbot (Canada), Carlos Goncalves (Portugal), Vashek Korinek (South Africa), Steve Whitt (United Kingdom), Herman Boel (Belgium), Giampiero Bernardini (Italy), Patrick Robic (Austria), Dave Kenny (United Kingdom), Jean Burnell (Canada), Bjorn Fransson (Sweden), Bengt Ericson (Sweden), Mika Makelainen (Finland), Dairo Monferini (Italy), Mauno Ritola (Finland).

This list could not be compiled without the help of the above sources. I cannot be held responsible for the accuracy of the information. There is no reference material to verify the information with so I have to rely on Dxers who can hear African stations for updates.
