

Final State Team Rankings

February 20, 2024

Team rankings are based on **predicted performance** at the season-ending State Tournament, as determined by theoretical points earned by individual wrestlers (for example, if a wrestler is ranked #1, 32 points is a fair approximation for 1st place; and if a wrestler is ranked #8, he would score a predicted 10 points). Dual meet results will have no bearing in the team rankings and two wrestlers at minimum must be ranked for a school to make the list.
