

Kathy Larson

Row 1 (#1-4)

I have 3 assorted glass buttons, since glass is my favorite category to collect. Angels are a love of mine, so I had to include one.

Row 2 (#5-8)

The first 2 are glass of shapes and mixed materials that are new for me. #7 is a Bimini glass- my first- I got at the Portland convention. The last is a jade duck because I have enjoyed ducks since I was young.

Row 3 (#9-13)

Three of these are military themed. #9 is Army for my grandfather who was in WW1 and #10 is a Navy button for my father, a veteran of WW2. The fourth (#12) is a Sam Biern with a military emblem inside. I first became familiar with his buttons at last year's Arizona convention. The middle button on this row is a glass with 3 colors and a cross hatch embossing on the glass which has a curved shape to it. I loved all the combinations. The last button is a compass with a movable needle.

Row 4 (#14-17)

These 4 are for my love of the seashore and sailing, both from the east and west coast. The sailboat I got at the Denver convention- a JHB.

Row 5 (#18-21)

#18 represents my love of children's buttons and sewing for my children.

#19 The acorn is for fall - my favorite season.

#20 is the favor button from the 2016 Wa State convention.; my 1st Wa convention.

#21 is Queen Elizabeth because who doesn't like a little royalty!

Row 6. (#22-25)

The first is a metal calico button- my first of these to go with my other calico buttons.

The 2 Peanuts buttons are for my family's love of Peanuts. Woodstock is my favorite.

The last is for all my cats I have had over the years, especially the orange and white ones.
