

COLLECTOR SHOWCASE

What a surprise when I opened my email recently to find such nice photos.

Paul had emailed me long ago, when I was still in Singapore, with photos of his extensive collection of soda memorabilia which he had displayed in a country store setting along with other vintage items.

This is what he said:

Kathy, in connection with your articles on Bottle Toppers, I am sending some photographs of part of my Bottle Topper collection. Also included is a few of my Nehi and Whistle items.

Of course, “part” of his collection is an understatement. But I was extremely pleased to have these photos to share with you now.

Paul also sent other photos, showcasing more of his collection, which I will include in the July/August issue of the *Soda Fizz*. Just wait until you see them!
